

Facebook

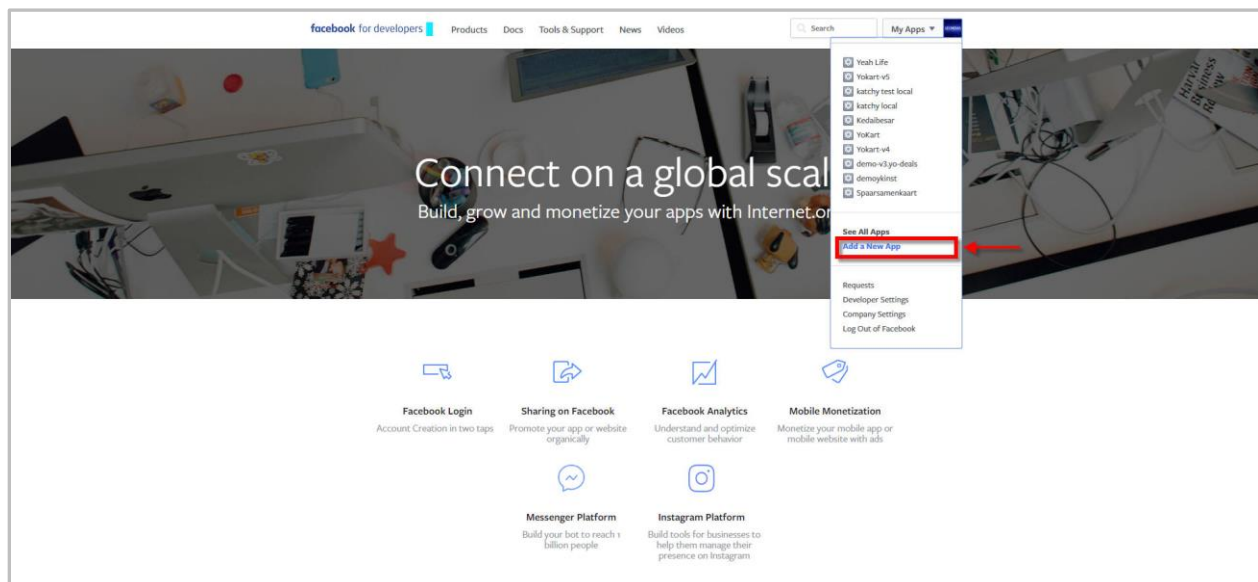

Following are the steps to get **Facebook App Id** and **Facebook App Secret**.

Step 1: Login into your Facebook account.

The screenshot shows the Facebook homepage. At the top left is the Facebook logo. To the right are input fields for 'Email or Phone' and 'Password', with a 'Log In' button. Below the logo is a message: 'Facebook helps you connect and share with the people in your life.' To the right of this message is a world map with several orange person icons connected by dashed lines. Further right is a 'Create an account' section with the text 'It's free and always will be.' Below this are input fields for 'First name', 'Surname', 'Email or mobile number', and 'Re-enter email or mobile number'. There is also a 'New password' field. Underneath is a 'Birthday' section with dropdown menus for 'Day', 'Month', and 'Year', and radio buttons for 'Female' and 'Male'. A green 'Create an account' button is at the bottom of the form. Below the button is a link: 'Create a Page for a celebrity, band or business.'

Step 2: After login, open this URL: <https://developers.facebook.com/apps>, on this page you will have an option for creating a new app. Please see below screenshot:

The screenshot shows the 'My Apps' page on the Facebook Developers website. The page has a header with 'facebook for developers' and navigation links for 'Products', 'Docs', 'Tools & Support', 'News', and 'Videos'. A search bar and 'My Apps' dropdown are in the top right. The main content area features a large banner with the text 'Connect on a global scale' and 'Build, grow and monetize your apps with Internet.org'. Below the banner are six service cards: 'Facebook Login', 'Sharing on Facebook', 'Facebook Analytics', 'Mobile Monetization', 'Messenger Platform', and 'Instagram Platform'. On the right side, a 'My Apps' dropdown menu is open, showing a list of existing apps like 'Yeah Life', 'Yokart-v5', etc. The 'Add a New App' option at the bottom of the list is highlighted with a red box and a red arrow.

Step 3: On click of **Add a New App**, it will open a form in pop up to create a new App.

On the **Create a New App ID** form, you need to fill up the **Display Name** and **Contact Email** to create an App ID. Please see below screenshot for your reference:

facebook for developers | Products Docs Tools & Support News Videos | Search | My Apps

Create a New App ID

Get started integrating Facebook into your app or website.

Display Name
YoDeals App

Contact Email
pop@dummyid.com

By proceeding, you agree to the Facebook Platform Policies | Cancel | **Create App ID**

Facebook Login
Account Creation in two taps

Sharing on Facebook
Promote your app or website organically

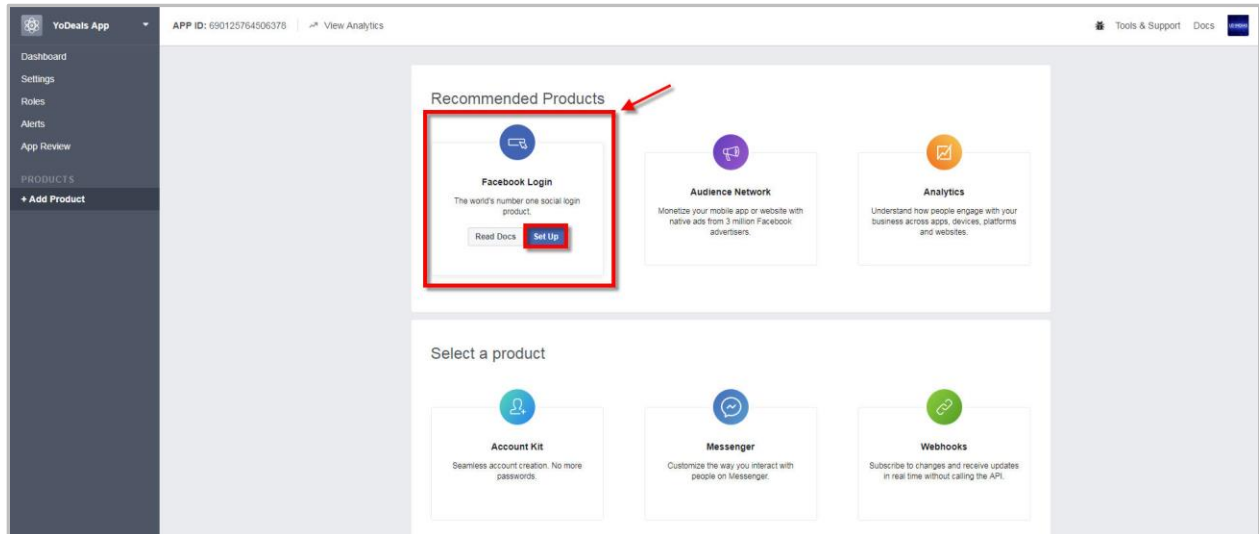

Facebook Analytics
Understand and optimize customer behavior

Mobile Monetization
Monetize your mobile app or mobile website with ads

If you do not find the option to create a new app in the upper right-hand corner then you need to click on **My Apps** and select **Add a New App**.

Step4: On click of **Create App ID**, you will be redirected to the App dashboard page.

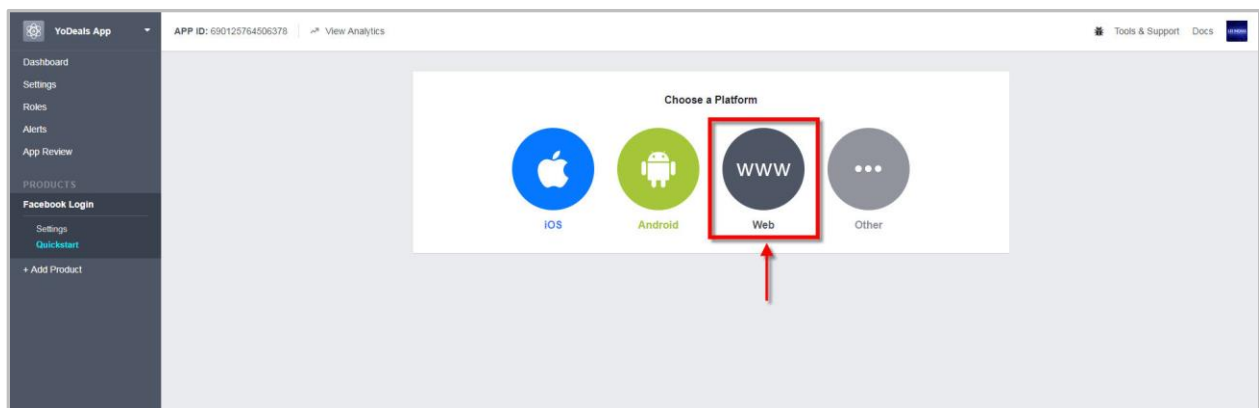

Click on **Set Up** button to set up an App for **Facebook Login**. Please see below screenshot for your reference:

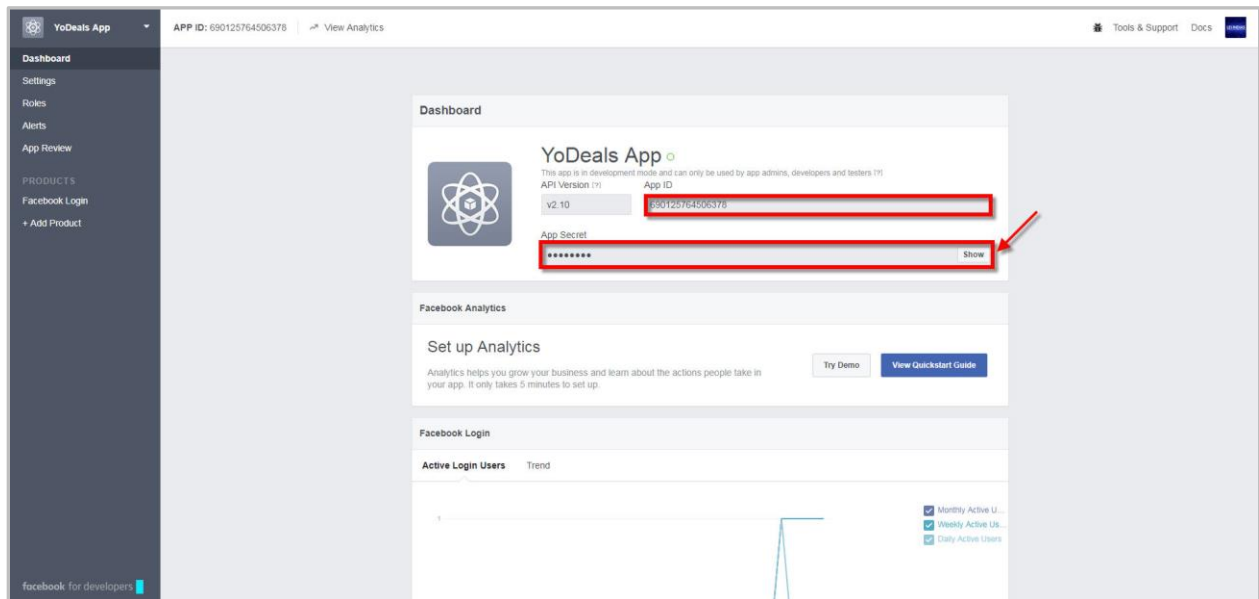

On click of **Set Up** button, you will be redirected to **Choose a Platform** screen.

You need to select **Web** platform from the available options as we are creating an App Id for **Login with Facebook** feature on the website.

Please see below screenshot for your reference:

Step 5: On click of a platform a user will be redirected to the App dashboard page. Please see below screenshot for your reference:

On this page, you can get both **App ID** and **App Secret** key. Click on **Show** to get the App Secret.

You have to again enter your password to get the **App Secret**.
