1.0 Admin Login

Admin can login into the system via the login screen. Please see the screenshot below:

Login screen

Login Credentials:

Username: XXXXX

Password: XXXXX

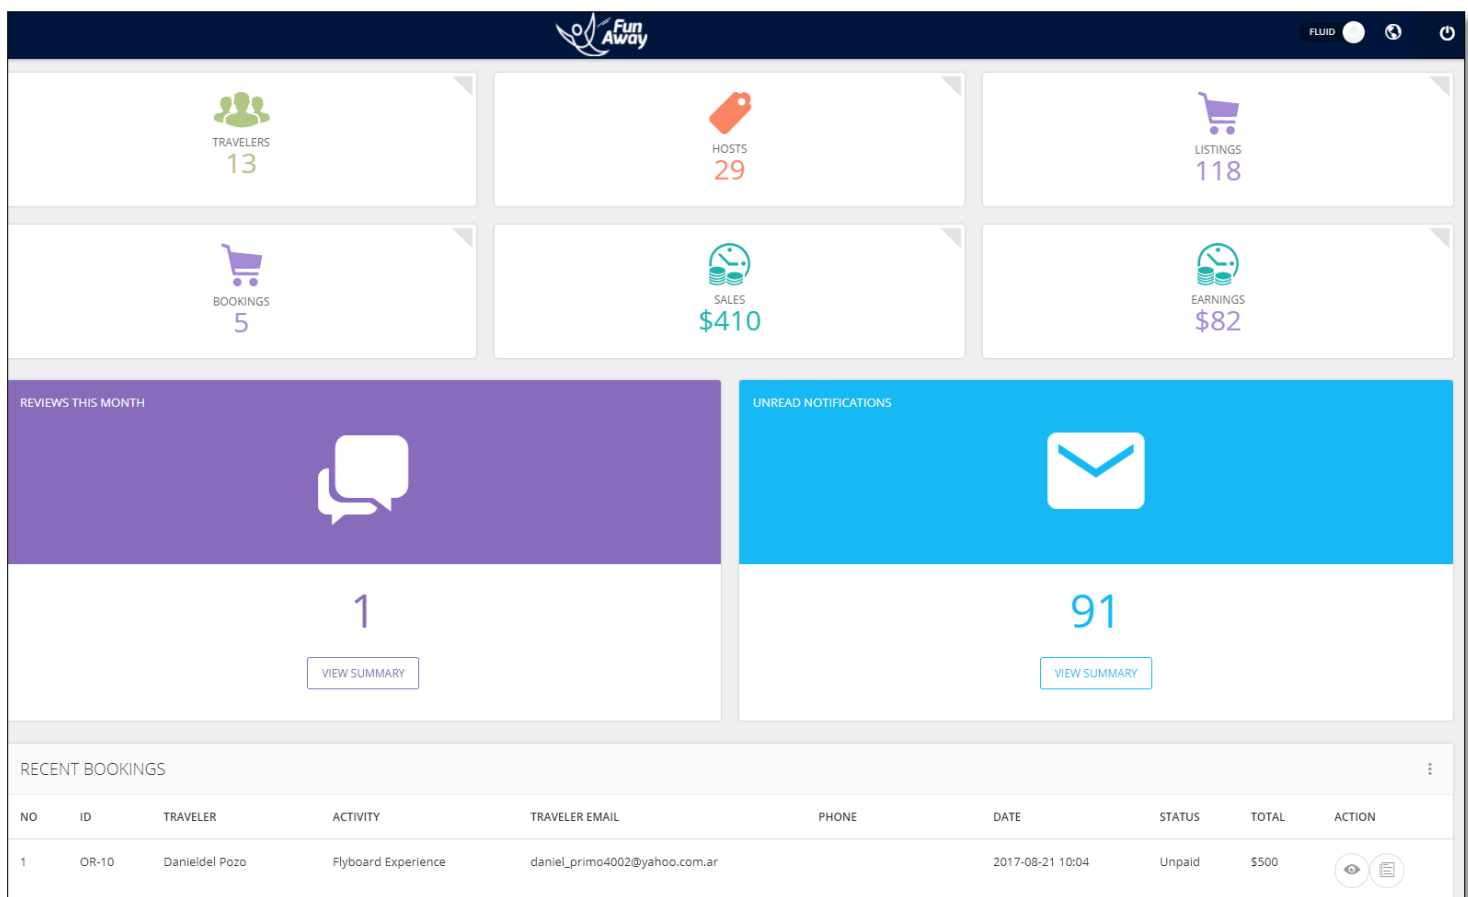

On click of Forgot Password link, admin can get his/her password reset link at email id by filling up the following details:

- 1) Email
- 2) Security Code

2.0 Dashboard

On the dash board, you can see the brief information or statistics of the different modules as explained below:

- Total Travelers – Total number of travelers registered on the website.
- Total Hosts – Total number of Hosts registered on the website.
- Total Listings – Total number of activity listings listed on the website
- Total Bookings – Total number of bookings of listings that have been made on the website.
- Total Sales – Total sales made on the website.
- Total Earnings – Total commission earned by the Admin via the bookings done on the website.

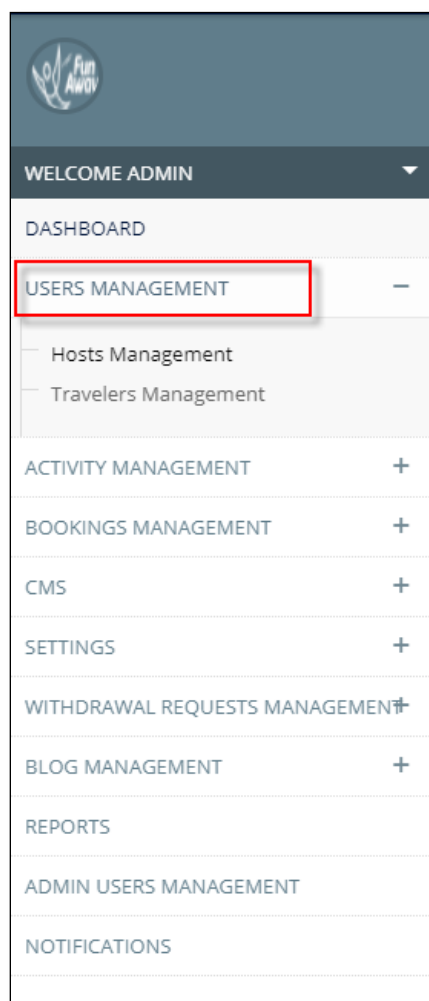

Dashboard

On click of icon, admin can logout of the Manager Area account.

3.0 Users Management

Admin can select the manage users from the top panel. Please see the screenshot below:

3.1 Hosts Management

Admin can select the Hosts management under the Users management from the left menu bar. In this section, admin can easily manage the registered hosts of the website. Please see the below screenshot:

Admin can search for any user using the below search filter:

- Name/Email: Admin can search host on the basis of email or name

Complete list of hosts will be visible. Please see the screenshot below:

Home / Hosts

6.0 CMS Management

Admin can manage the content of the website from this tab of the left panel. Please see the screenshot below:

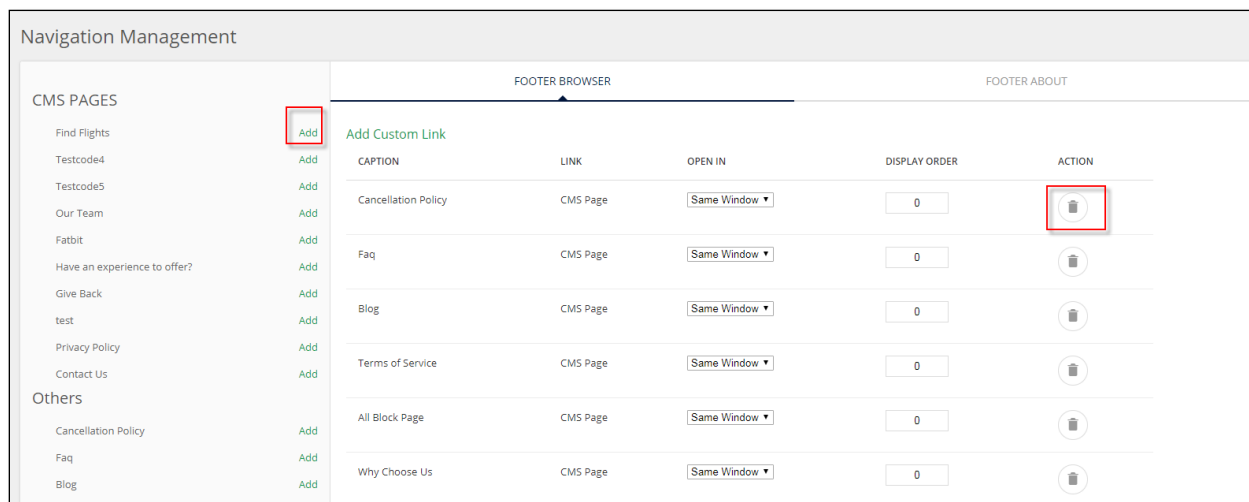

6.1 Navigation management

Admin can view Navigation Management option under CMS menu in the left panel of the admin area. Please see screenshot for your reference:

In this section, Admin can view a list of CMS pages and manage them through this area. Please see below screenshot for your reference:

CMS Pages:

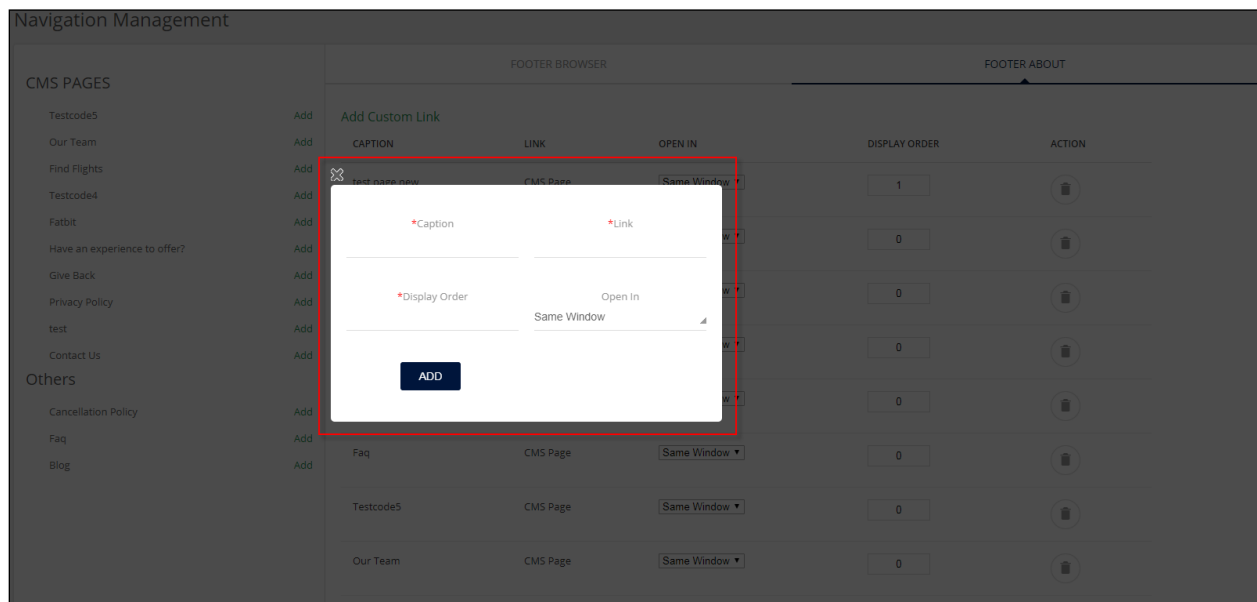

It will list all the CMS pages created by the Admin. With 'Add' option, Admin can add that particular CMS page in the Footer Browser or Footer Header as per his/her preference.

Add custom link:

Admin can add any custom link as well under Footer Browser or Footer Header by providing the following details:

- Caption Name – Name of the link
- Link to CMS page – List of pages under the content pages
- Display Order – Display order like 0,1,2 etc.
- Link Target –
 - Current Window – Target link to Current window
 - New Window – Target link to New Window

Please see the screenshot below:

Add custom link

On click of icon , Admin can delete any existing page.

6.2 Banners management

Admin can manage the banners displayed on the homepage from the Banners management tab. On clicking on Banners management, admin will be redirected to the banners listing page. Please see the screenshot below:

Banners						
<div>Search</div> <div> <div>Keyword</div> <div>Status</div> </div> <div>Does not Matter</div> <div>SEARCH</div>						
BANNERS						ADD NEW

On click of icon , Admin can delete any existing comment

Admin can search a blog comment by KEYWORD and STATUS fields.

10.0 Reports

Admin can select the reports link from the left panel menu to view the report of host and his activity, for any particular date/duration. Also, reports can be viewed depending upon their type. Admin can view the report date wise, month wise, activity wise or host wise.

Please see the screenshot below:

The screenshot shows a 'Reports' form. At the top is a search bar with the placeholder text 'Search (Select Criteria To Generate Report)'. Below this are two input fields: 'Host' with the value 'Fatbit Team' and 'Activity' with the value 'Flyboard Experience'. There are also 'Start Date*' and 'End Date*' fields. A 'Report Type' dropdown menu is open, showing options: 'Date Wise' (highlighted in blue), 'Month Wise', 'Activity Wise', and 'Host Wise'. A 'SEARCH' button is located to the right of the dropdown. At the bottom of the dropdown list is the word 'REPORTS'.

Reports

Based on the report type selected by the Admin, the report will be shown for the same preference. Please see the below screenshot for 'Date wise' performance of an activity by a host.
