Registered User Account Area Interface

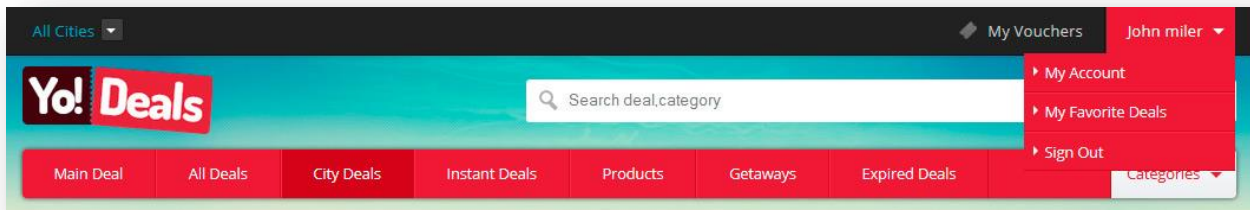

Once signed up to create an account, user gets an email for verifying the account at his/her email address entered during registration form. See below email template:

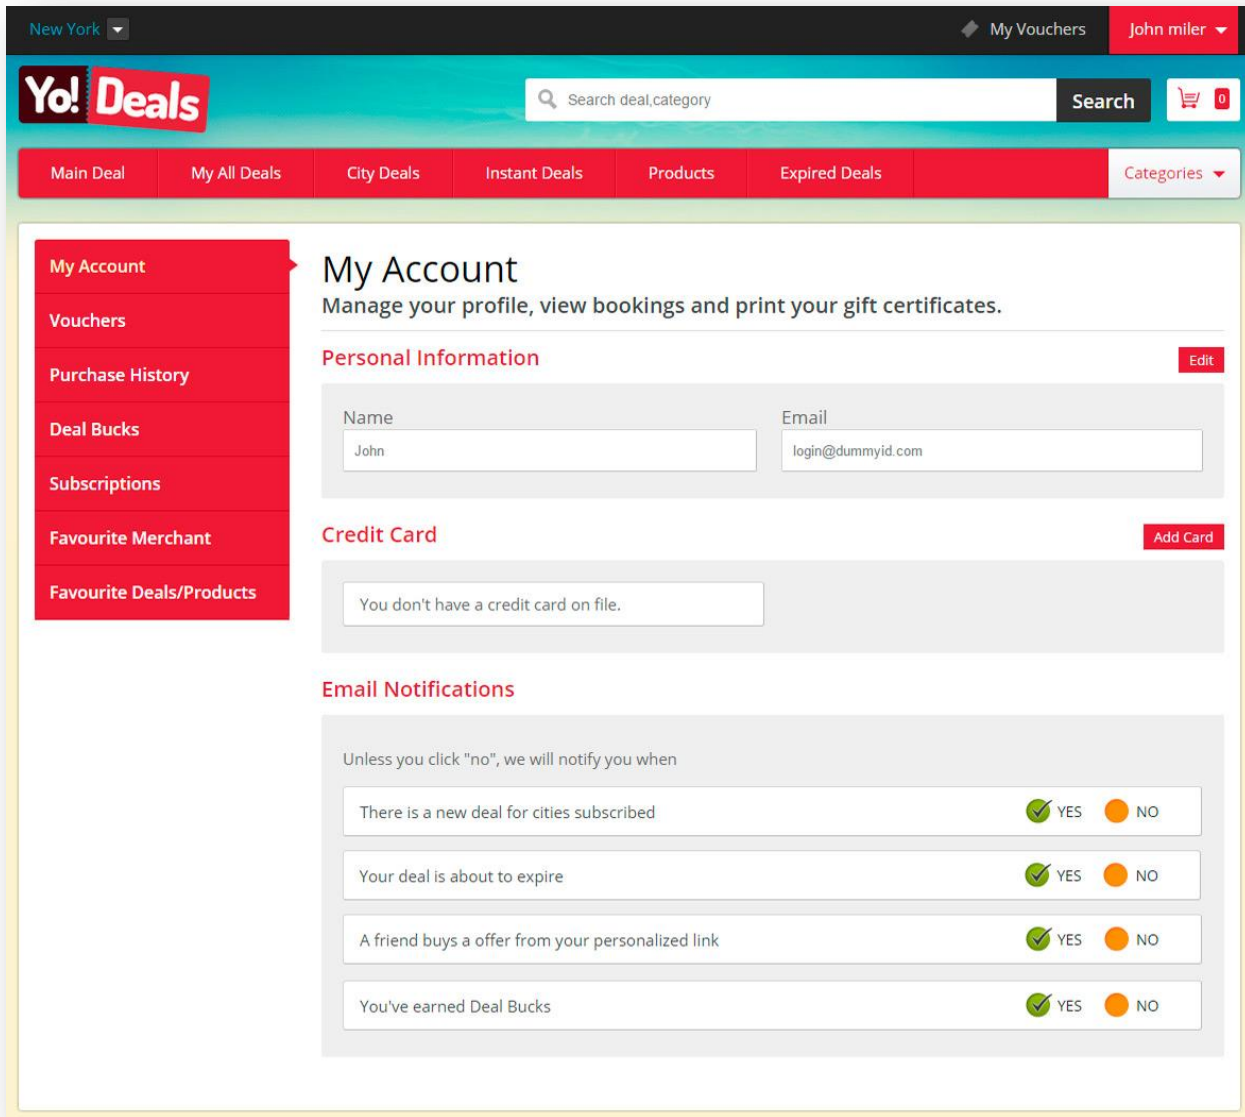

On clicking verifying your account button, user is logged into his account area automatically and is redirected to city entered in registration form.

Then clicks on **My Account** from the dropdown. See below screen which gets displayed:

After click on **My Account** the following screen will be displayed:

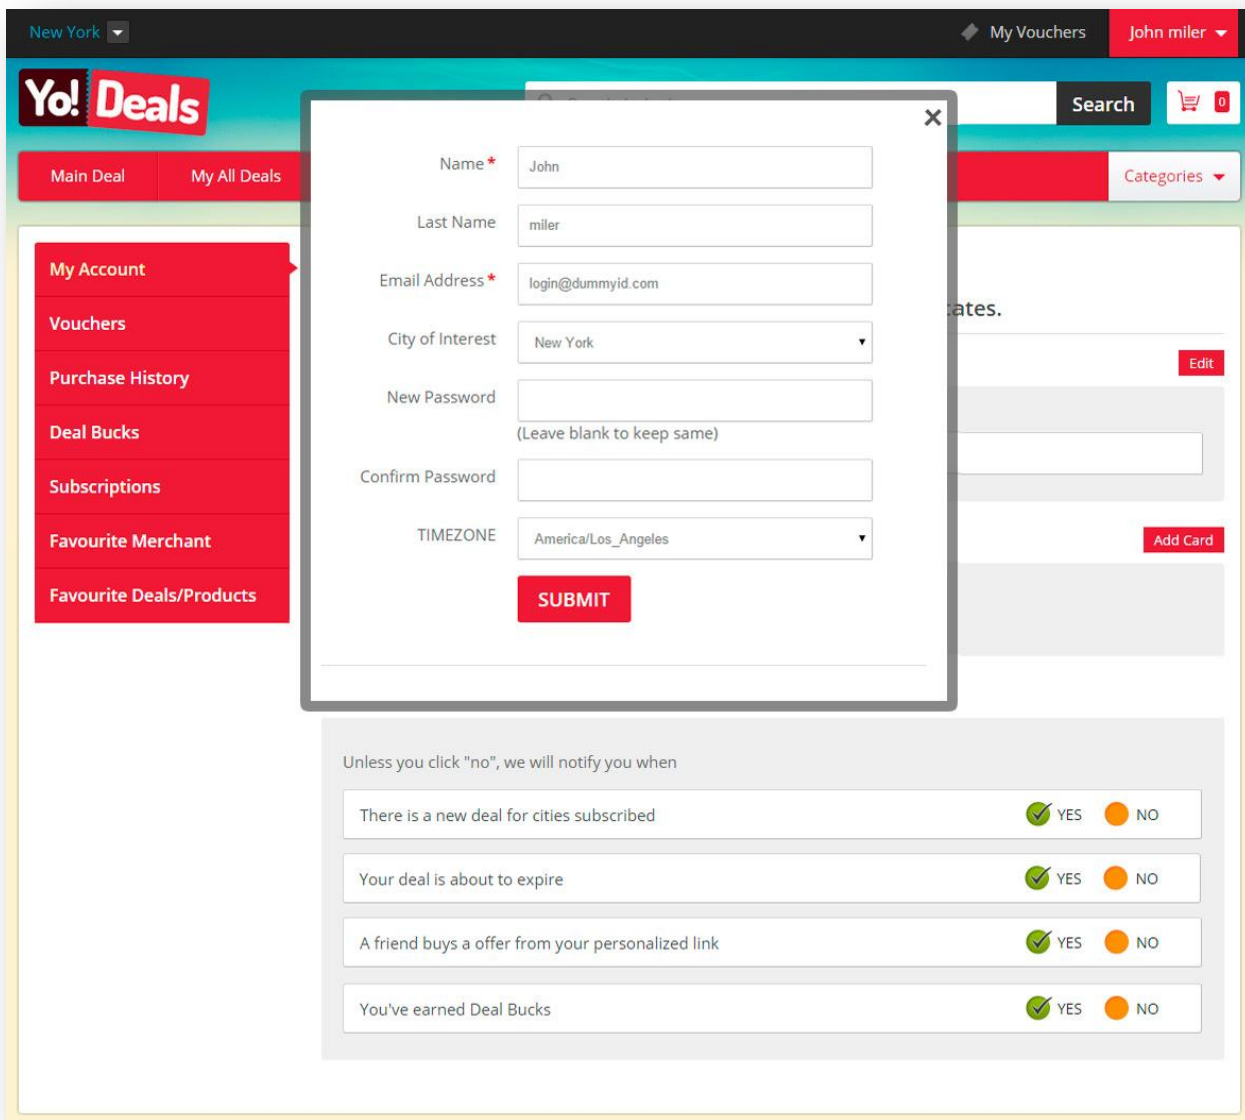

On My Account screen: Registered user can change his profile details like personal information by Clicking on edit button and can also set following email notifications:

- Regarding deal expiration

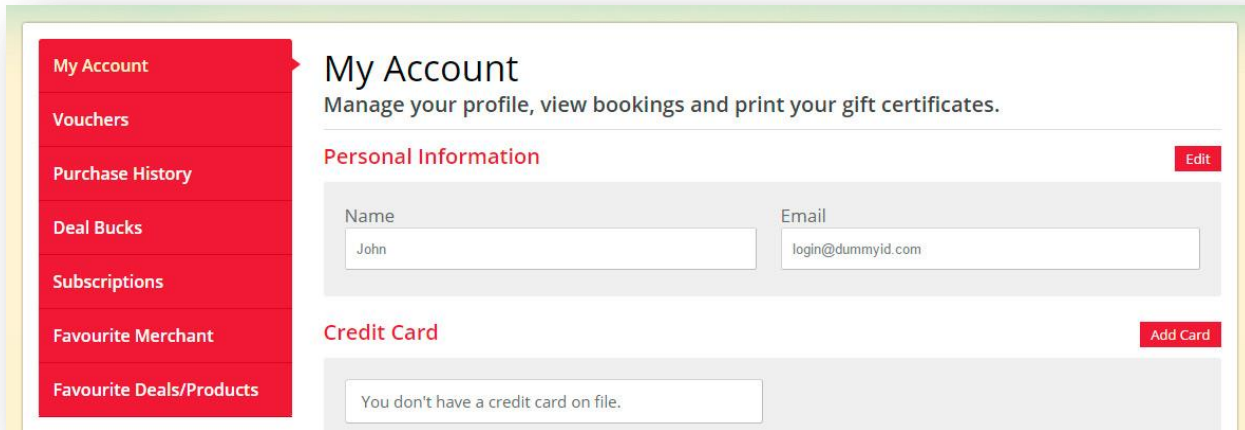

- Earned bucks on a deal
- Referred friend buys a deal
- New deal of subscribed cities
- New deal from favorite merchants.

On clicking edit button, registered user can update/edit following fields like name, password etc. See below screen:

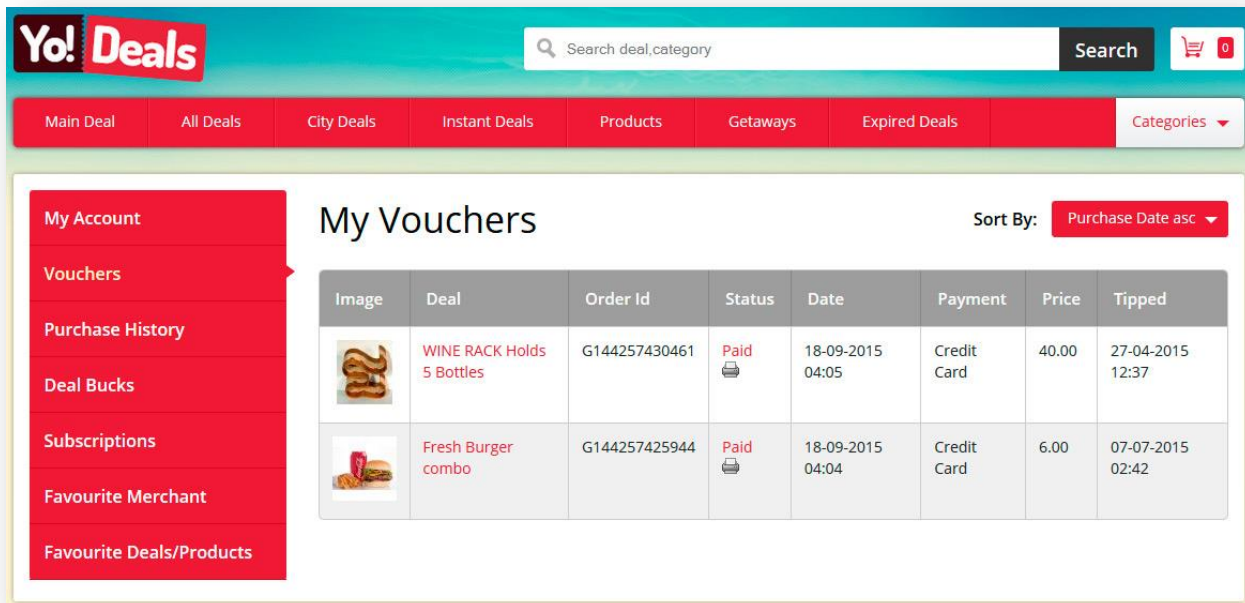

There are following left navigational links are provided for registered users:

- 1) My Account
- 2) My Vouchers
- 3) Purchase History
- 4) Deal Bucks
- 5) Subscriptions

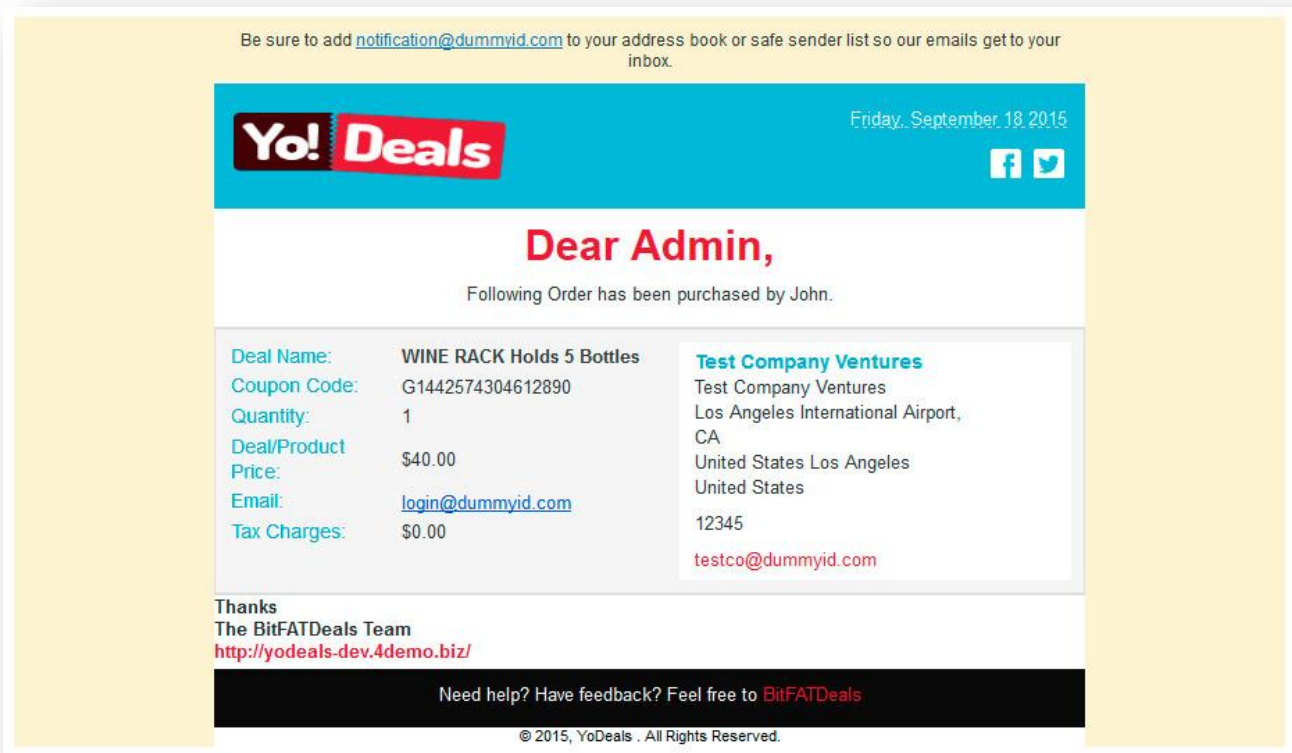

My Vouchers: On clicking this left navigation link, registered user gets below screen:

Here user can see a list of his purchased deal vouchers and sort by ascending or descending order.

Tabular structure various columns like **Date**, **Payment**, **Deal**, **Quantity**, **Tipped**, **Print** are listed.

On clicking printer icon under status column, a particular voucher can be print out. See below template on clicking print icon:

Payment column shows mode of payment status like from wallet, Paypal or from Authorize.net.

My Vouchers

Sort By: Purchase Date asc ▼

Image	Deal	Order Id	Status	Date	Payment	Price	Tipped
	WINE RACK Holds 5 Bottles	G144257430461	Paid 	18-09-2015 04:05	Credit Card	40.00	27-04-2015 12:37
	Fresh Burger combo	G144257425944	Paid 	18-09-2015 04:04	Credit Card	6.00	07-07-2015 02:42

Tipped column shows time at which deal is tipped. Here in above screen it is coming blank which means that deal tipping point (Minimum Coupons Sold to tip the deal) is set to more than 1 say 10. So when 10 coupons are sold then time of deal tipped gets displayed in the column: Tipped column for the registered user to view.
