Yo!Kart is the perfect ecommerce solution to create an marketplace in today's online world where multiple vendors can sell their products through one common platform. It guarantees a multivendor website that's secure, scalable and brings all the important features promised by top marketplaces of the world. It also includes Reports & Analytics to get valuable insights which will help the admin to track useful aspects like sales, traffic, registrations, conversions, etc. and formulate better future business strategies. New features are also implemented as per the requirement of Multilingual & Multi-currency option.

Yo!Kart driven marketplaces belong to the future for cutting edge features and UX focused interface. Advantages promised by our advanced multivendor store builder are actually endless. Read on and discover the most important features and aspects of Yo!Kart
Frontend Key Features

- New Intuitive design for better UI & UX

- Includes Multilingual & Multi-currency system which gives the best user experience. It allows the visitors to view the website in their own preferred way.

- Marketplace, allows you to sell products from 1000s of vendors with easy to use interface for Suppliers, Buyers and Backend Team

- Catalog system where admin can create the catalog and sellers can pick the items which they want to sell on the portal

- Provides a market place where customers can buy new, used & refurbished products.

- Cash on Delivery option available for users.

- Unlimited* number of site Users and Products Listing

  Note: Our scripts do not limit the number of users or products but beyond 100,000 Users and 100,000 Products – You will need a more powerful server/hosting service and may be some optimization into the scripts and Database also as the database size and concurrent users count increase. Ideally we recommend that you should have the hosting budget of 100 USD per month if the average daily visitors count is up to 1000 Visitors. This budget should increase at least in the same proportion when your user base/average daily visitors count is increasing.

- Free registration/membership for users (Sellers/Buyers/Advertisers/Affiliates).

  Note: a) If required we can program it to be paid feature. Additional Cost: USD 500.
  b) Admin may choose to enable subscription Module to make vendor registration paid as per his choice

- Member Sign-up, Login & Forgot Password

- Sign-in/Login with Facebook & Google+
• Allow Separate Sign Up / Login for Vendors and Buyers.

Note: As per default settings, every registered user is a ‘Buyer and Seller’ thus can access the buyer and seller dashboard from single login. If required, admin settings allow you to activate separate Signup and Login for Buyers/Sellers.

• Subscription module for Sellers to list the products on the website (Manageable from the backend – Admin can ON/OFF the subscription as per the requirement)

• Promotions & Advertisements of Products/Shops/Banners

• Ability to List Digital Products for sellers

• Ability to List Products with YouTube URL Videos.

• Payment Gateway Integration
